Please spare with fog or haze!!! It causes problems playing the trumpet!

Please provide a strong strobe (e.g. MARTIN Atomic 3000) with a controller on stage!

Instructions

- we prefer dynamic lighting, moving lights, flashing LED-bars,...
- we don't like statical or only fading illumination
- please boost the pulse of our music with a lot of flashing lights!
- black the stage completely after every song for a second!
- use the strobe especially in the two techno-parts on "Ha Emek" (No other lights, only strobe!!!).
Follow the live-instructions and HAVE FUN! 😊
